

3/12/18

Colour Pallet

longpress
deletes it

click

adds a new grid
(new class)

Do you want to delete?	
no	yes

① adding to grid
and deleting dynamically

② Change colour and name
a layout dynamically
by selecting on a pop-up

* adding a new grid means
adding a folder in the apps directory
with the specified name.
and also save the colour.

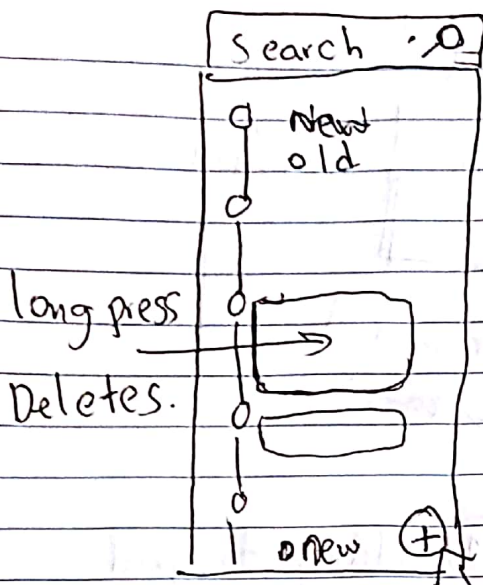

* Save name and the colour in
in a json file

⑤ How to have a
free and paid app.

Does it have to be
two different apps.

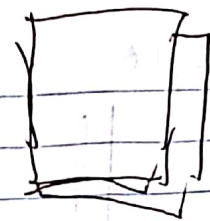

③ Find a way to use
a different font in
the whole app.

④ find a way to
get the time and date
a file was created
